## Personal Profile

A hard-working and honest person looking for a rewarding career in the Web programming sector. Highly focused with a comprehensive knowledge of different types of programming languages. Have good knowledge of programming languages through self-study.

Eager to learn, easy going by nature and able to get along with both work colleagues and senior managers. Currently in part-time jobs and looking for a suitable web developer position to further my career with a progressive employer.

## Key Skills

- Able to work in a fast-paced environment & complete projects to schedule;
- Proven ability to code and build perfect websites and applications using HTML, CSS, JavaScript, AngularJS, ReactJS, AJAX, jQuery, XML, PHP and MySQL, WordPress, Drupal, etc;
- Familiar with CMS system (e.g. GitHub);
- Some project management skills and ability to manage own projects;
- Can multi-task effectively, pay attention to detail and meet tight deadlines;
- Able to work with diverse clients, either commercial or public sectors;
- Can communicate effectively with clients to understand their requirements;
- Ability to meet clients face-to-face and build long-term relationships;
- Can explain technical issues clearly to non-technical colleagues & clients.
